Tip of the Month

Operation L.A.W. - Lakewood Auto Watch - decal program identifies a participating Lakewood resident's vehicle as being possibly stolen when it is on the road between the hours of 1-5 a.m. If a law enforcement officer sees your vehicle with the L.A.W. decal out during these hours, it gives them authorization to stop and investigate the vehicle's occupants. If you use your vehicle during these early morning hours, this program is not for you. But if you do not drive during the wee hours of the morning and would like to keep your vehicle safe, you can enroll at the Lakewood Sheriff's Community Safety Center or the Lakewood Sheriff's Station.

Presidents Corner

The next few months should be very exciting for LGCA and our members. Summer is almost here, it's time to come to the Clubhouse Pool to cool off. The board has come to a decision of the Game-Room and it's a GO but we didn't come to this decision lightly. We wanted to make a decision that would best benefit our community as a whole. There will be a partition next to the wall to conceal the games on the weekend rentals. During the week the games will be out for members to play and enjoy.

Volunteers sign up for this year's Fireworks Stand is now open. Go to www.lgca.info for more information on ways to help your LGCA. This is our biggest FUNDRAISER of the year and we would like to have the community involved. If you can't volunteer and would like to support us, come by and be a customer! **LGCA members get 10% discount** when you show your membership card!

Splinters from the Board – April 2016

Multiple events have been discussed for planning, including the "Mexican Fiesta" in May, the "Meet Your Neighbor" Ice Cream Social and "Lakewood Grads Pool Party" events in June, and the "Fireworks Stand" in July. The second Thursday of every month will be the new Bunco Game Night at 7pm. The Game Room was approved in the large hall and a partition is being planned to section off a small area to store the games when the room is rented. The board also approved a Solar System and Solar Thermal System & HVAC to help the clubhouse go Green, while bringing down the high cost of heating the pool year-round and cooling the clubhouse during the summer.
